

NSHP Energy Efficiency

Lela Manning
NSHP Training Seminar
February 7, 2014

Changes to Efficiency Requirements

- Incorporated 2013 Building Energy Efficiency Standards
 - Code Compliant Incentive Level
 - Tier I
 - 15% compliance margin for residential buildings
 - 10% compliance margin for non-residential buildings
 - Tier II
 - 30% compliance margin for residential buildings, 30% space-cooling compliance
 - 15% compliance margin for non-residential buildings, 15% space-cooling margin
- Solar Compliance Credit (2013 Standards only)
 - Available for single family projects in Climate Zones 9-15
 - Credit available only when 2015 federal AC standards are used
 - Cannot be claimed for 2013 Code-Compliant projects
 - Can be claimed for 2013 Tier I and Tier II projects.

Changes to Efficiency Requirements (cont.)

• Revised Title 24, Part 6 form names for 2013

Previous Name	Revised Name
CF-6R Certificate of Field Verification	CF-2R Certificate of Installation
	CF-3R Certificate of Verification
and Diagnostic Testing	

Revised NSHP Efficiency Verification Form Name

Previous Name	Revised Name
CF-4R-EE NSHP Certificate of Field	NSHP EE-3 Additional Energy
Verification	Features Checklist

NSHP EE Requirements

- Any building whose electric load is offset by the PV system must meet NSHP EE requirements.
- For Common Area PV System incentives:
 - Residential Subdivision
 - All Homes meet NSHP EE requirements
 - Multifamily Development
 - All least one residential building must meet NSHP EE requirements

Code Compliant Incentive Level Requirements

- Compliance documentation may be completed by anyone legally authorized to 2013 Title 24, Part 6 compliance documentation.
- Not allowed to claim solar compliance credit.
- Must submit a copy of the Title 24 compliance documentation run using the 2013 compliance software.
 - Same as documentation submitted to local building department
- Must select a HERS Rater for their PV inspection
 - No NSHP energy efficiency verification will be required

Utility New Construction Program Participants

- Complete Utility EE Requirements, not NSHP EE requirements
 - Do not submit any EE documents to NSHP
 - CF-1R
 - Electronic input files (.bld or .mp8)
 - Plan Set and Checklist Items no NSHP Plan Check
 - Do not need to complete NSHP EE Verification
 - NSHP EE-3 does not need to be filled out
 - Only PV Verification by a HERS Rater needs to be completed
 - Required Documentation
 - Utility EE Program Approval Letter with Reservation Application or alternate PA confirmation
 - Submit Utility EE Program Payment Letter to NSHP with Payment Claim Application or alternate PA confirmation

NSHP Plan Check Requirements

- NSHP Plan Checks Required for all projects except:
 - 2013 Code-Compliant NSHP projects
 - Projects with compliance documentation signed by a CEA certified for the 2013 Standards
 - Projects participating in a utility new construction energy efficiency program
 - Projects that have their NSHP Plan Check waived do not need to submit:
 - Construction Plan Set
 - Electronic input files (.bld or .mp8)
 - Plan Set and Checklist Items no NSHP Plan Check

Plan Check Documentation

- Plan Check Checklist listed in Appendix C
- Construction Plan Set
 - Architectural, Electrical, Mechanical, and Plumbing
 - Window/Door Schedule showing sizes and including ALL skylights
 - Elevation, wall, roof, floor construction assemblies
 - Floor finish schedule (if CF-1R shows high mass design)
 - A site plan with a North Arrow (custom homes)

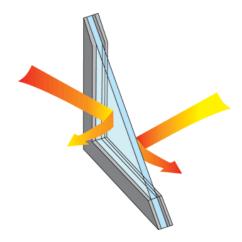

Plan Check Documentation

- Title 24 and PV Forms and Files
 - > CF-1R-prepared by a Certified Energy Plans Examiner
 - .bld or .mp8 (EnergyPro or Micropas)
 - > CF-1R-PV
 - > .her and .emf
- Equipment and Materials Spec Sheets
 - ➤ Windows, Glazed Doors, Skylights
 - > Space Heating
 - ➤ Air Conditioning(www.ahridirectory.org)

NSHP HERS Provider

 CalCERTS and CHEERS are the only HERS registries certified for NSHP EE and PV field verification

www.cheers.org

www.calcerts.com

HERS Registry Process

Parties Involved:

- Project Created by: Energy Consultant/HERS Rater or NSHP PA
- Project Owned by: HERS Rater
- Project Shared with: Energy Consultant, HERS Rater (PV and EE), PA

• Steps Involved:

- Approved CF-1R and NSHP PV-1 uploaded to registry by NSHP PA
- If not created by HERS Rater, project is transferred to Rater and shared
- If Rater not on transfer list, PA contacts Provider to have Rater added
- Homeowner requested to sign off on CF-1R
- After homeowner signoff, Rater can access CF-1R and can upload inspection results
- If changes are made to building, a new CF-1R must be submitted for review

Energy Efficiency Inspection

- Before EE Inspection:
 - Rater must obtain applicable CF-2R(s) from installer
 - Rater must obtain NSHP EE-3 from registry
- HERS rater will verify installed features listed on form
 - Pre-drywall inspection
 - HERS Rater may need to come on-site
 - Pictures, invoices and CF-2Rs can be used as verification. Must be okayed by HERS Rater first.
 - QII must be completed pre-drywall
 - Final inspection
 - HERS Rater completes NSHP EE inspection (NSHP EE-3)

PERF-1 Projects

- No way to currently upload a PERF-1 to CalCERTS registry
 - Applies to non-residential buildings and high-rise residential buildings greater than three stories
- Must submit all Acceptance Test results, HERS Test Results, and Utility Inspection Results to the NSHP PA for review.
 - After reviewing the submitted documents, the PA will sign off that the project has met all NSHP EE requirements

Photovoltaic System Inspection

- Before PV Inspection
 - ➤ Rater must obtain applicable NSHP PV-2 (formerly CF-6R-PV) from installer
 - ➤ Rater must obtain PV checklist from HERS registry
- During PV Inspection
 - ➤ HERS rater will verify system installation matches NSHP PV-1 and NSHP PV-2
- After PV Inspection
 - ➤ HERS Rater upload verification results to registry to generate NSHP PV-3
